## PERIOD ACTIVITY REPORT APP-General Information

The Period Activity Report APP consolidates data for specified dates or for an entire BSP reporting period and exports it to Excel, CSV, XML or JSON format.

## PERIOD ACTIVITY REPORT-Display

The Period Activity Report APP can be displayed with following format:

Format:	Explanation:
#HMPP	Display the Period Activity Report for your own office

HMPP Report

Select date from: 13.09.2021 15

Select date to: 19.09.2021 15

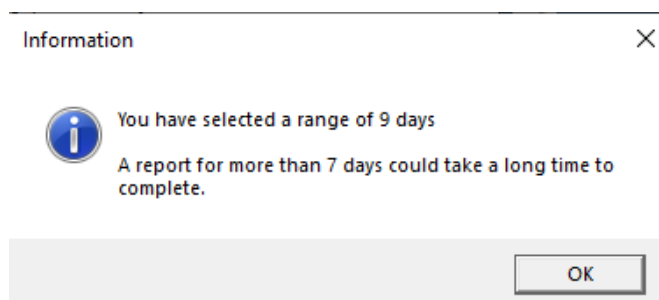

Select export format: Excel

EXPORT

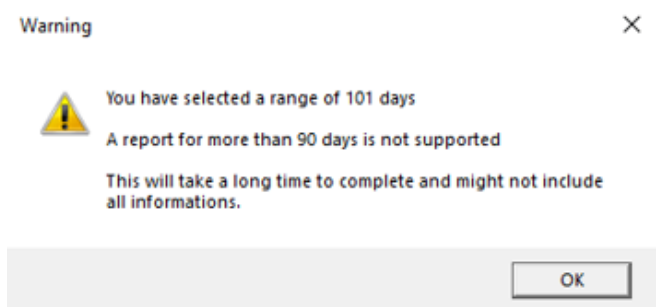

You will get this screen where you can select the “date from”, “date to” and the export format.

### Please note:

- The tool automatically defaults to the last whole week (Monday to Sunday)
- If you select a range of more than 7 days, you will get a message informing you that the report could take some time to finish.

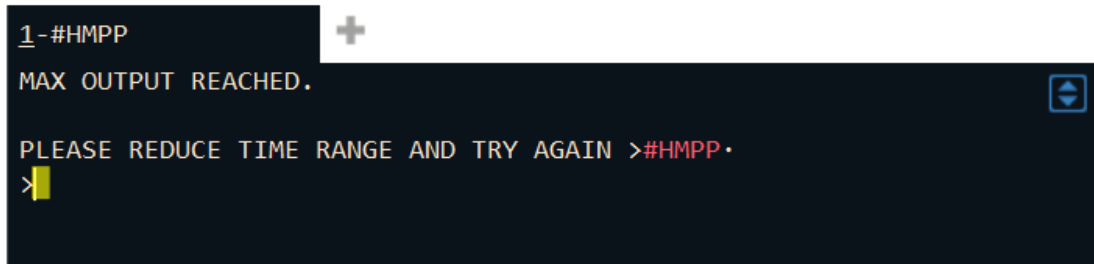

- If you select a range of more than 90 days, you will get a warning that this is not supported – you may try to run the report anyway but it might take a very long time to complete, stop if “max output is reached” or show incomplete data.

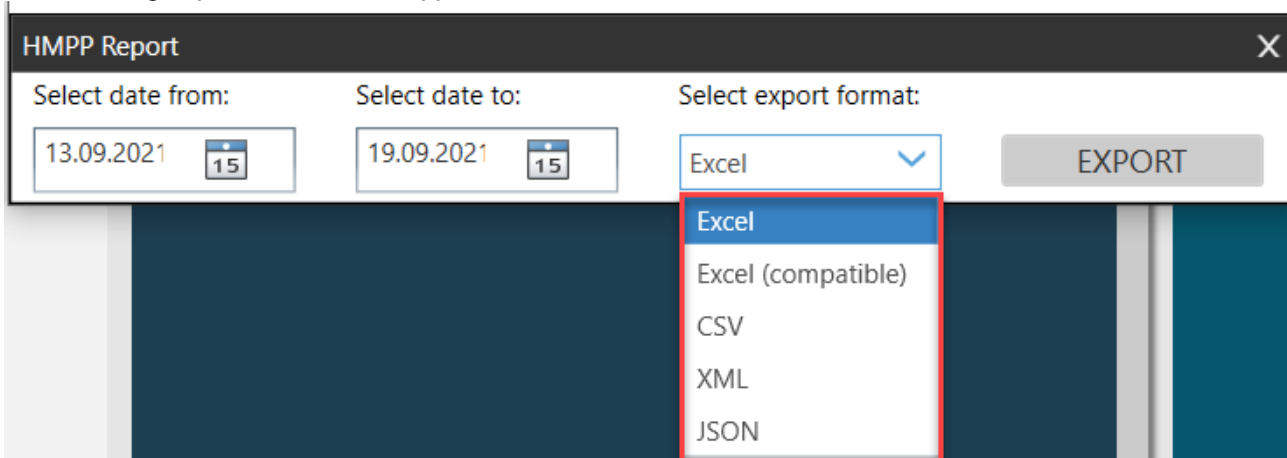

- If the maximum output is reached you will get this message – in this case, try to select a smaller time range and run the report again.
